PREFACE

The Criminal Statistics of Canada are collected, compiled and published under authority of the Act respecting the Dominion Bureau of Statistics, 8-9 George V, Chapter 43.

The tables of the report conform with those of previous years. With reference to police statistics, returns are collected from cities and towns of over 4,000 population. The returns of the 1921 census now being available, the number of towns from which returns were procured exceeds the number shown in the 1920 report. The tables of prison statistics include those for 1920, which were unavoidably omitted from last year's report.

The report has been prepared under the supervision of Mr. Reginald E. Watts, Statistician.

CRIMINAL STATISTICS OF CANADA, 1921.

INTRODUCTION

The criminal statistics of Canada are presented under two main headings, in accordance with the Criminal code, viz., (a) Indictable offences and (b) non-indictable offences, or Summary Convictions. The former are tabulated in six classes: Class 1. Offences against the person; Class 2. Offences against property with violence; Class 3. Offences against property without violence; Class 4. Malicious offences against property; Class 5. Forgery and offences against the Currency; Class 6. Other offences not included in the foregoing classes.

With regard to indictable offences the number of charges is dealt with, and for convicted persons the information collected includes the nature of the sentence, age, sex, birthplace, religion, occupation, conjugal condition, habits as to use of intoxicating liquors, educational status and residence, (rural or urban). For acquittals the number and sex only is given. For non-indictable offences convictions only are dealt with, and no detail beyond sex, and the form of sentence is collected.

The returns for the year ended September 30, 1921, show that the courts disposed of 24,943 cases of indictable offences, of which 19,396 were convicted and 5,492 were acquitted. The juries disagreed in 24 cases; 30 were detained for lunacy, and 1 committed suicide before trial. The increase over the previous year was: charges, 7.45 per cent, and convictions, 5.17 per cent.

The summary convictions numbered 157,704 for the year 1921, being an increase of 9.31 per cent over 1920.

The total convictions of the two divisions for 1921 are 177,100 an increase over 1920 of 8.84 per cent.

A comparative statement for a five-year period is shown below:—

INDICTABLE OFFENCES

1921	24,943	1,730	7·45	19,396	953	5·17

Year	Summary Convictions			Total Convictions		
	Number returned	Increase		Number returned	Increase	
		Number	Per cent		Number	Per cent
1917	98,452	.....	.....	114,011	.....	.....
1918	105,899	7,447	7·56	123,236	9,257	8·12
1919	111,623	5,724	5·40	130,019	6,751	5·48
1920	144,265	32,642	29·24	162,708	32,689	25·14
1921	157,704	13,439	9·31	177,100	14,392	8·84

The two outstanding features in the foregoing tables are: the small increase in indictable offences (.25 per cent) and the abnormal increase in non-indictable offences (29·24 per cent) in 1920, as compared with other years. The average for the three years 1918, 1919, and 1921 was a little over 7 per cent for both categories of offences, and was fairly uniform in those years. The increase of 32,642 in non-indictable offences for 1920 is caused principally by offences against municipal by laws (mostly in street and traffic regulations) by 19,785; and of drunkenness 15,552 over the figures of the previous year. Ontario and Quebec contributed 6,484 and 7,765 respectively to the increase in municipal offences; with regard to the increase in drunkenness, Ontario contributed 6,523 and Quebec 4,747, the remaining 4,282 being distributed among the other seven provinces.

The next important increase was 2,864 in breaches of liquor laws.

The principal decrease was 5,035 in offences against Militia and War Measures Acts.

Juvenile Delinquents

Juvenile delinquency decreased again in 1921. The convictions for indictable offences were 3,227 for the year, compared with 3,355 for 1920, a decrease of 128 or 3.82 per cent. The decrease in 1920 was 13.44 per cent, and 5.55 per cent in 1919.

The following table shows the trend of Juvenile criminality since 1901.

JUVENILES UNDER 16 YEARS OF AGE CONVICTED OF INDICTABLE OFFENCES SINCE 1901

Years	Total Convictions of indictable offences	Number of Juveniles Convicted	Percentage to total Convictions	Increase or decrease			
				Number		Per cent

1906-10 "	10,337	1,103	10·67	+	221	+	25·26
1911-15 "	17,715	2,262	12·77	+	1,159	+	105·04
1916	19,160	3,157	16·48	+	895	+	39·58

1918	17,370	4,104	23·57	+	498	+	13·81
1919	18,396	3,876	21·07	−	228	−	5·55
1920	18,443	3,355	18·19	−	521	−	13·44
1921	19,396	3,227	16·63	−	128	−	3·82

In reference to the increase in convicted Juveniles of 105 per cent per annum during the 1911-15 period, it may be pointed out that crime in general was increasing at a rate of over 70 per cent per annum during the same period. The decrease in Juvenile delinquency during the last three years has occurred notwithstanding a general increase in crime.

In this connection it may be opportune to recall the influences that have been at work in the field of endeavour regarding the welfare of the delinquent and neglected juvenile.

In 1908 the Dominion government passed the Juvenile Delinquents Act, which among other things authorized the establishment of Juvenile courts (tribunals of less formality than the regular criminal courts) before which cases of Juvenile delinquency and neglect could be dealt with in a practical and humane manner. The various provinces lost little time in taking advantage of this Act, with the result that in almost every important city or town in the Dominion, juvenile courts have been established. It is the aim of these courts to correct

rather than punish the delinquent, the cases being disposed of generally by light or suspended sentences. Working in conjunction with the juvenile courts are probation officers, juvenile court committees, children's aid societies, and other welfare associations; all bending their efforts to the same end, viz., to set the child on the pathway to a better future. It would seem that the betterment in juvenile delinquency is attributable to the efforts of these institutions.

The figures representing juveniles are shown in tables VII and VIII of the report.

In addition to the indictable offences herein discussed there were 2,963 convictions for minor offences (table VIII) returned as tried before juvenile courts. The figures for 1920 were, 2,953, an increase of 10, of these 241 were "neglected children" i.e., those made wards of the province or municipality. The total number of neglected children returned by juvenile courts, and police magistrates courts for 1921 was 626.

In a report of the superintendents of neglected and dependent children for Ontario and Saskatchewan the number of children made wards of the province or of municipalities was far in excess of that number for these two provinces alone, which is evidence that a large number of magistrates do not include neglected children in their returns. In answer to an inquiry relative to this discrepancy in the number of children classified under the term "neglected" the superintendent of neglected children for Ontario says: "I do not see how we are to circumvent this, as a salient fact in any given case might be given precedents by the court in which it was heard, and another fact in the same case might appear to us, as social workers of greater importance, and consequently the child would be listed under another heading."

DIVISION I—INDICTABLE OFFENCES

The indictable offences for 1921, grouped by classes, are given below compared with 1920.

Class 1, Offences against the person, shows an increase in charges of 324, or 8 per cent; and in convictions an increase of 14, or 3.9 per cent. Although there were 20 more charges for murder in 1921 than in 1920, the number of convictions was 9 less. In 1921 the charges were 77, but only 17 convictions were secured. Of the convicted, 9 were born in Canada, 1 in Ireland, 6 in other foreign countries, and 1 not given. The convictions for attempt to commit murder and manslaughter together numbered 60 in 1921, a decrease of 2 in the year. Of these, 30 were born in Canada, 1 in England, 27 in other foreign countries, and 2 not given.

Rape and other crimes against decency show an increase in convictions of from 298 to 362 for the year, being 21·1 per cent. The birthplaces of these are given as Canada 202; British Isles, 42; other foreign, 75; and 43 not given.

Assaults, including shooting, stabbing and wounding, number 2,261 convictions in 1921 being an increase of but 41 over 1920. Less than half, or 1,060 of these were born in Canada, 244 in the British Isles, 583 in foreign countries, and 374 not given.

Class II shows an increase in charges of 516, or 19 per cent, and in convictions of 299, or 13 per cent. As will be seen this class is composed principally of burglary, house and shopbreaking.

Class III includes theft and all kinds of frauds. It is the largest of the classes, comprising ·53 per cent of the total convictions. The charges and con-

victions have increased but little over the previous year, but the convictions of these two classes of offences against property constitute 67 per cent of the total convictions.

Class IV malicious offences against property has decreased in both charges and convictions.

Class V, Offences against the Currency, has increased by 7·6 per cent in charges and by 26 per cent in convictions.

Class VI, has changed but little in the aggregate but the various items have changed more or less. Increases are shown in, carrying unlawful weapons, driving automobile while intoxicated, keeping and inmates of bawdy houses, perjury, and in prison breach and escape from prison. Decreases are shown in offences against gambling and lottery acts, breaches of revenue laws, illicit stills, and in riot and affray.

The comparative tables follow.

From the above it is seen that the ratio of cases tried by the different courts varies but little from year to year. The most notable feature is the small percentage of convictions secured in the jury trials, as compared with the non jury trials. In 1921 the jury verdicts were only 50·7 per cent for convictions, being the lowest figure in the 21 years shown. As shown in a previous table there were 77 charges of murder with but 17 convictions; for manslaughter there were 39 convictions from a total of 89 charges; attempt to commit murder shows 40 charges and but 21 convictions. For this group of three crimes convictions amounted to only 37·3 per cent of the total number dealt with. With regard to non jury cases; in speedy trials the percentage of convictions runs from 69 to 75·8 and in the summary trials from 69·1 to 84·2. By reference to the next table following it will be seen that the percentage of the total convictions dropped from 79·45 to 77·76 during the year.

The geographical distribution of crime is shown by the following table, which gives the number of charges, convictions and acquittals, and percentages of convictions to charges by provinces for 1920-21:—

The order in which the provinces stand with respect to the ratio of convictions to charges, not considering the Yukon Territory, is as follows: New Brunswick and Manitoba with 89·86 and 88·02 per cent respectively; Saskatchewan, British Columbia, Quebec, Ontario, and Alberta, with convictions ranging from 78·58 down to 76·59 per cent; Nova Scotia, with 70·29; and Prince Edward Island, with 66·66 per cent.

The following table shows the number of convictions of indictable offences per 100,000 population by provinces for the years 1917-21.

PART II—SUMMARY CONVICTIONS

The second division of offences consists of cases disposed of by police magistrates or other justices of the peace by virtue of the Summary Conviction's Act, and includes offences against the various provincial and municipal acts and by-laws, breaches of the peace, common assaults, offences against liquor laws, drunkenness and all other minor offences.

The number of convictions for non indictable offences in 1921 was 157,704 as against 144,265 in 1920, and 111,623 in 1919. The increase in 1921 over 1920 was 13,439, or 9·31 per cent. The increase in 1920 over 1919 was 29·24 per cent. These figures show a decided check in the advance of this class of offences.

By sexes the convictions in 1921 show 149,792 males, and 7,912 females compared with 135,873 males and 8,392 females in 1920. This is an increase of 10·24 per cent in males and a decrease of 5·72 in females. The percentages of convicted females to total convictions for the three years 1919-20-21 were 7·43, 5·82, and 5·01 repsectively.

The following table gives the number of summary convictions by provinces in 1921 compared with 1920:—

The group of offences relating to liquor Acts and drunkenness for 1920 and 1921 shows:—

	1920	1921
Convictions for having illicit stills	239	220
Convictions for breach of liquor Acts	10,247	10,460
Convictions for drunkenness	39,769	34,362
Number of persons fined for breaches of liquor acts	9,674	9,031
Number of persons fined for drunkenness	36,009	32,001
Amount of fines paid for breaches of liquor acts	$1,442,754	$1,375,377
Amount of fines unpaid for breaches of liquor acts	244,676	431,253
Amount of fines paid for drunkenness	315,099	316,960
Amount of fines unpaid for drunkenness	65,294	82,268

The total amount of fines paid and unpaid, imposed upon the 9,031 persons for breaches of liquor Acts in 1921 was $1,806,630, or an average of $200.05 per head. The figures for 1920 were $1,687,430 total fines, or an average of $174.43 per head.

For drunkenness the total fine imposed on the 32,001 persons in 1921 was $399,228, or an average of $12.48 per head, as against $380,393 total fines, and an average of $10.56 per head for 1920.

Police Statistics

The police statistics for 1921 were collected from 125 cities, and towns of a population of over 4,000.

Owing to the fact that these statistics are a new undertaking, difficulties were met with in procuring returns from a number of places, and a few, twelve in number failed to make any returns, but only two of these, Brantford, Ont., and Hull, Que., were of importance as to size. The other places not making returns are: North Sydney, Springhill and Westville, in Nova Scotia; Chatham, in New Brunswick; Lauzon, in Quebec; Cobourg, North Bay, and Pembroke, in Ontario; and Yorkton, in Saskatchewan.

The total population of the 125 cities and towns that made returns is 3,130,178. The total police force of these places is given as 3,889, being one policeman for every 830 of the population.

The total number of offences known to have been committed in 1921 is shown as 183,708. The number of persons prosecuted was 155,159, and the number of convictions secured was 132,886, showing the the police succeeded in bringing to trial 84 per cent of the persons committing offences; and 86 per cent of the persons prosecuted were convicted.

The number of automobiles reported stolen in 1921 was 4,298 valued at $5,004,116. Of these the police recovered 3,962, valued at $4,710,129.

Of 5,633 bicycles stolen 2,915 were recovered, and in addition to these were 2,219 bicycles found by the police that were not reported stolen. Of other articles the police recovered $1,601,875 worth from $2,436,070 reported lost or stolen.

The percentage of recovered articles are as follows:—

Number of automobiles	92·2 per cent
Number of bicycles	51·8 "
Value of the other lost articles	65·7 "

Identifications to the number of 3,037 cases were established by means of photographs or finger prints.

The number of doors to premises found unlocked, or insecure amounted to 25,219. During the year the police gave shelter to 24,526 persons, and recovered 5,028 children who had become lost on the streets.

The population of the different penal institutions for the years 1920 and 1921, is shown on table IX of the report.

In using these figures it is well to point out, in order to avoid duplications, that those given as inmates of penitentiaries and reformatories, are as a matter of fact in most cases also registered in the gaols, before being sent to these institutions.

Pardons and Commutations

The number of cases in which the prerogative of mercy was exercised in 1921 was 990, a decrease of 227 from 1920. Of those affected 847 were released on ticket of leave with various conditions attached, 128 conditionally without ticket of leave, and 15 were released unconditionally. Of those released 431 were from penitentiaries, 231 form reformatories, and 310 from common gaols. Those who were not imprisoned, and had fines remitted or reduced numbered 18.

In addition to the above, unconditional pardon was granted to 23 ticket of leave men. Ten death sentences were commuted during the year.

PRÉFACE

La statistique de la criminalité est colligée, compilée et publiée en vertu des dispositions de la loi constituant le Bureau Fédéral de la Statistique, 8-9 Georges V, chapitre 43.

Les tableaux de ce rapport ne diffèrent pas de ceux des années précédentes. En ce qui concerne les statistiques de la police, elles émanent des cités et villes ayant une population de plus de 4,000 habitants. Les résultats du recensement de 1921 étant connus, plusieurs villes sont entrées dans la catégorie ci-dessus, qui n'y figuraient pas en 1920. Les données statistiques se rapportant aux prisons comprennent les chiffres de 1920 qu'il avait été impossible de faire figurer dans le rapport de l'an dernier.

Ce rapport a été dressé sous la direction de M. Reginald E. Watts, statisticien.

R. H. COATS,
Statisticien du Dominion.

STATISTIQUE DE LA CRIMINALITÉ AU CANADA, 1921.

INTRODUCTION

La statistique de la criminalité au Canada est présentée sous deux classifications principales, déterminées par le code criminel, savoir: (*a*) les crimes et délits graves (c'est-à-dire toutes les infractions à la loi ressortissant de la cour d'assises) et (*b*) les menus délits et contraventions. Les crimes et délits graves sont eux-mêmes divisés en six catégories: (1) attentats contre les personnes; (2) délits contre la propriété, avec violence; (3) délits contre la propriété, sans violence; (4) attentats criminels contre la propriété; (5) faux et faux monnayage; (6) autres crimes et délits non compris dans les catégories précédentes.

En ce qui concerne les crimes et délits graves, la statistique porte d'abord sur le nombre des accusations; elle indique, de plus, mais pour les condamnés seulement, la nature de la condamnation, l'âge, le sexe, le lieu de naissance, la religion, l'occupation, l'état matrimonial, la tempérance ou l'intempérance, le degré d'instruction et la résidence, soit rurale soit urbaine. Quant aux personnes ayant bénéficié d'un acquittement, on se borne à donner leur nombre et leur sexe. En ce qui concerne les menus délits et contraventions, la statistique se préoccupe uniquement des condamnés et se restreint à l'indication de leur sexe et de la nature de la condamnation.

La compilation des rapports qui nous sont parvenus démontre qu'au cours de l'année terminée le 30 septembre 1921, les cours et tribunaux ont eu à connaître de 24,943 crimes et délits graves et qu'ils ont prononcé 19,396 condamnations et 5,492 acquittements; de plus, 24 de ces causes ont amené un désaccord du jury; 30 accusés furent envoyés dans des asiles d'aliénés et un autre se suicida avant son procès. Il y eut donc augmentation de la criminalité sur l'année précédente de 7·45 pour cent quant aux accusations et de 5·17 pour cent, quant aux condamnations.

Pendant la même année 1921, il a été prononcé 157,704 condamnations pour menus délits et contraventions, soit une augmentation de 9·31 pour cent sur 1920. Le total des condamnations prononcées en 1921, pour l'ensemble des crimes, délits et contraventions s'est donc élevé à 177,100, soit une augmentation sur 1920 de 8·84 pour cent.

Nous donnons ci-dessous un état comparatif pour la dernière période quinquennale.

1921	157,704	13,439	9·31	177,100	14,392	8·84

Les chiffres qui précèdent attirent immédiatement l'attention sur deux faits qui s'en dégagent lumineusement, savoir: l'augmentation excessivement minime (0·25 pour cent) des crimes et délits graves et, d'autre part, l'augmentation anormale (29·24 pour cent) des menus délits et contraventions en 1920, comparativement aux années précédentes. Pour les trois années 1918, 1919 et 1921 la moyenne d'augmentation, à peu près uniforme, dépasse à peine 7 pour cent, pour l'ensemble des crimes, délits et contraventions. L'augmentation de 32,642 menus délits et contraventions constatée en 1920, est constituée principalement par la violation des règlements municipaux au nombre de 19,785 (surtout la circulation des voitures) et par les condamnations pour ivresse, qui dépassent de 15,552 celles de l'année précédente. Les provinces d'Ontario et de Québec ont contribué, à concurrence de 6,484 et 7,765 respectivement, à l'augmentation des contraventions aux règlements municipaux; quant aux condamnations pour ivresse, Ontario a contribué à leur accroissement à concurrence de 6,523 et Québec, à concurrence de 4,747, les 4,282 autres cas d'ivresse se répartissant entre les sept autres provinces. En troisième lieu, les violations de la loi sur les liqueurs figurent dans cette augmentation pour 2,864 causes. Par contre, on constate des diminutions de fréquence de certaines offenses dont la plus notable est une décroissance de 5,035 causes d'infraction aux lois militaires et aux mesures de guerre.

Criminalité juvénile

La criminalité juvénile a continué à décliner en 1921, les condamnations prononcées au cours de l'année pour crimes et délits graves n'ayant pas dépassé 3,227, comparativement à 3,355 en 1920, soit une diminution de 128 condamnations ou 3·82 pour cent. Déjà, en 1920, s'était manifestée une diminution de 13·44 pour cent sur 1919, laquelle était elle-même en décroissance de 5·55 pour cent sur l'année précédente.

Un coup d'œil jeté sur le tableau qui suit renseigne sur les tendances de la criminalité juvénile depuis 1901.

1921	19,396	3,227	16·63	– 128	– 3·82

L'extraordinaire accroissement de 105 pour cent par an que l'on remarque durant la période 1901–1915 s'explique partiellement par le fait que la criminalité poursuivait une marche ascendante à cette époque, le pourcentage d'augmentation, pour tous crimes et délits, dépassant 70 pour cent. La diminution de la criminalité juvénile qui s'est produite durant les trois dernières années, contraste avec une augmentation de la criminalité en général pendant la même période.

A cet égard, il n'est pas inutile de rappeler que ces heureux résultats sont dus surtout aux efforts accomplis en faveur de l'enfance abandonnée ou coupable.

En 1908, le gouvernement fédéral passa la loi sur les jeunes délinquants laquelle, entre autres choses, pourvoyait à la création de tribunaux pour enfants, où la mansuétude joue un plus grand rôle que la rigueur, et dépourvus du formalisme qui entoure les tribunaux ordinaires. Les différentes provinces s'empressèrent de bénéficier des dispositions de cette loi, si bien qu'à l'heure actuelle il existe des tribunaux pour enfants dans presque toutes les cités ou villes importantes de la Puissance. Ces tribunaux ont pour but de corriger les coupables plutôt que de les punir, les sentences étant généralement très bénignes et souvent même suspendues. Les magistrats qui les président sont aidés dans leur tâche par des surveillants ou tuteurs officieux, et différents comités ou associations d'Aide à l'Enfance, qui tous s'efforcent de détourner l'enfant du vice pour le ramener dans le chemin du devoir. Il n'est pas douteux que l'amélioration que constate la statistique dans la criminalité juvénile soit attribuable aux travaux de ces institutions.

Les données se rapportant à l'enfance coupable font l'objet des tableaux VII et VIII de ce rapport.

Outre les crimes et délits graves dont il vient d'être parlé, les tribunaux pour enfants ont de plus prononcé 2,943 condamnations pour menus délits et contraventions, (tableau VIII); en 1920, il n'y avait eu que 2,953 condamnations, soit 10 de moins; 241 de ces condamnations frappaient des «enfants négligés», c'est-à-dire confiés aux soins des provinces ou des municipalités. Il semble résulter des rapports reçus des tribunaux pour enfants et des magistrats de police, qu'en 1921 le nombre de ceux-ci atteignit 626.

D'autre part, dans leurs rapports respectifs, les directeurs des asiles à l'usage des enfants négligés ou abandonnés des provinces d'Ontario et de la Saskatchewan, constatent que dans ces deux provinces seulement, le nombre de ces enfants dépasse de beaucoup les chiffres ci-dessus, ce qui prouve qu'un grand nombre de magistrats laissent de côté dans leurs rapports les enfants négligés. Invité à fournir une explication à ce sujet, l'inspecteur général des enfants moralement abandonnés de la province d'Ontario, répondit: «Je ne vois pas la possibilité d'éviter des erreurs de ce genre, car l'enfant placé par le juge dans une certaine catégorie peut être considéré sous un aspect différent par les œuvres sociales, et classé autrement».

I. CRIMES ET DÉLITS GRAVES

Nous donnons ci-dessous un résumé succinct des crimes et délits graves, groupés par catégories, pour 1921, comparativement à 1920. La première catégorie, qui embrasse tous les attentats contre les personnes, présente une augmentation de 324, ou 8 pour cent, dans les accusations et de 114, ou 3·9 pour cent, dans les condamnations. Quoiqu'il y eut en 1921, 20 accusations de meurtre de plus qu'en 1920, il y eut cependant 9 condamnations en moins, soit 17 condamnations sur 77 accusations. Parmi ces 17 condamnés, 9 étaient nés au Canada, 1 en Irlande; 6 dans d'autres pays étrangers; enfin, on ignorait le

lieu de naissance du dernier. Les tentatives d'assassinat et les homicides involontaires ont donné lieu à 60 condamnations en 1921, soit une diminution de 2 condamnations. Parmi ces 60 condamnés, 30 étaient nés au Canada, 1 en Angleterre, 27 dans des pays étrangers et 2 dont l'origine était inconnue. Le viol et les autres attentats à la pudeur, qui avaient donné lieu à 298 condamnations en 1920, en ont suscité 362 en 1921, soit une augmentation de 21·1 pour cent, le lieu de naissance des condamnés étant : Canada, 202; îles Britanniques, 42; pays étrangers 75, inconnu 43. Les coups, blessures et voies de fait graves ont entraîné 2,261 condamnations en 1921, en augmentation de 41 sur 1920. Moins de la moitié de ces condamnés, soit 1,060, sont nés au Canada, 244 dans les îles Britanniques, 583 dans des pays étrangers et 374 dans des lieux inconnus.

Les délits de la deuxième catégorie présentent une augmentation de 516 ou 19 pour cent quant aux accusations et de 299 ou 13 pour cent quant aux condamnations. Ainsi qu'on le verra, cette catégorie se compose principalement des vols avec effraction et cambriolages.

La troisième catégorie embrasse le vol simple et toutes sortes d'escroqueries ou actes frauduleux; c'est le groupe le plus important, puisqu'il comporte à lui seul 53 pour cent du total des condamnations. L'augmentation sur l'année précédente est minime, mais néanmoins, les condamnations des deuxième et troisième catégories constituent 67 pour cent du total.

On constate une diminution, tant dans les accusations que dans les condamnations appartenant à la quatrième catégorie, qui concerne les attentats criminels contre la propriété.

Le faux et le faux monnayage, qui constituent la cinquième catégorie, présentent une augmentation de 7·6 pour cent quant aux accusations mais de 26 pour cent quant aux condamnations.

Enfin, la sixième catégorie ne présente que peu de changement dans l'ensemble, mais les différents délits qu'elle embrasse offrent certaines variations. Ceux dont la fréquence s'est accrue sont: le port d'armes prohibées, la conduite d'un automobile par un chauffeur ivre, la tenue d'un lupanar et son habitation; le parjure et l'évasion de prison. Les décroissances portent sur les infractions aux lois contre le jeu et les loteries, les infractions aux lois fiscales, la distillation illicite, l'émeute et le tumulte.

Suivent les tableaux comparatifs.

Il est aisé de voir que la proportion des causes soumises aux différentes cours ne varie que fort peu d'année en année. Le fait le plus saillant qui s'en dégage, c'est le pourcentage minime des condamnations prononcées en cour d'assises; les causes portées devant les juges statuant sans l'assistance d'un jury donnent une proportion de condamnations beaucoup plus élevée. Au cours de l'année 1921, les condamnations prononcées en cour d'assises ne représentent que 50·7 pour cent des causes jugées par ces cours, proportion la moins élevée que l'on constate en 21 ans. Ainsi qu'on l'a pu voir dans un tableau précédent, 77 accusations de meurtre n'ont entraîné que 17 condamnations, 89 accusations d'homicide involontaire n'ont été suivies que de 39 condamnations et sur 40 accusés de tentative d'assassinat 21 seulement ont été condamnés. Pour ce groupe de trois crimes, les condamnations ne représentent que 37·3 pour cent seulement du total des accusations. Examinons maintenant les causes portées devant les tribunaux criminels autres que les cours d'assises; dans les procès expéditifs le pourcentage des condamnations oscille entre 69 et 75·8 pour cent et dans les procès sommaires entre 69·1 et 84·2 pour cent. Pour l'ensemble des crimes et délits graves le pourcentage des condamnations par rapport aux accusations est tombé, au cours de l'année, de 79·45 à 77·76 pour cent.

Le tableau suivant est un indice de la criminalité dans les différentes provinces; il donne le nombre des accusations, des condamnations, des acquitte-

ments et le pourcentage des condamnations par rapport aux accusations pour chaque province, en 1920 et 1921:

Provinces	1920				1921

Canada	23,213	18,443	4,770	79·45	24,943	19,396	5,547	77·76

Il résulte des chiffres qui précèdent qu'au point de vue du pourcentage des condamnations, les provinces se placent dans l'ordre suivant: Nouveau-Brunswick et Manitoba, 89·86 et 88·02 pour cent respectivement; Saskatchewan, Colombie-Britannique, Québec, Ontario et Alberta varient entre 78·58 et 76·59 pour cent; Nouvelle-Ecosse 70·29 pour cent et Ile du Prince-Edouard 66·66 pour cent.

Le tableau suivant fait ressortir le nombre des condamnations pour crimes et délits graves, par 100,000 habitants et par provinces, pour les années 1917–1921.

Provinces	1917	1918	1919	1920	1921	Moyenne

Le relevé qui suit indique, en même temps que le nombre des criminels par 100,000 habitants, dans chaque province, la proportion de la population urbaine des dites provinces:

Passons maintenant à la classification des criminels par métiers et professions:

Occupation	1920	1921	Fluctuation
Agriculteurs	898	1,034	+ 136
Bûcherons et ouvriers de scieries	19	54	+ 35
Pêcheurs	56	41	− 15

Occupations inconnues	6,787	7,085	+ 298
Total	18,443	19,396	+ 953

En ce qui concerne le sexe des condamnés on constate une augmentation de la criminalité des deux sexes. C'eux du sexe masculin, qui étaient au nombre de 16,722 en 1920 sont passés à 17,503 en 1921, soit un accroissement de 4·7 pour cent; et ceux du sexe féminin, au lieu de 1,721 en 1920 se dénombrent par 1,803 en 1921, soit un accroissement de 4·8 pour cent.

Le tableau qui suit est consacré à la criminalité féminine dans chaque province et détermine sa proportion par rapport à l'ensemble des criminels en 1920–1921.

Provinces	1920		1921

Canada	1,721	9·33	1,893	9·76

Depuis 1916 jusqu'à 1921, on remarque une décroissance régulière et considérable dans la proportion des femmes condamnées pour crimes et délits graves; seule l'année 1921 signale une légère augmentation sur l'année précédente:

1916	19·17 pour cent.
1917	15·89 "
1918	14·39 "
1919	12·15 "
1920	9·33 "
1921	9·76 "

Si l'on considère l'origine des criminels on obtient la répartition suivante:

Lieu de naissance	1920	1921
Canada	51·9 pour cent.	54·7 pour cent.
Angleterre	8·0 "	8·5 "
Irlande	1·3 "	1·4 "

La classification des criminels selon leur confession religieuse donne les résultats suivants:

CRIMES ET DÉLITS—RELIGION DES CONDAMNÉS

Confessions religieuses	Nombre de condamnations		Augmentation ou diminution	Pourcentage	
	1920	1921		du total des condamnations en 1921	de la population totale de 1911

Les informations recueillies au point de vue du degré d'instruction des criminels démontrent qu'en 1921, ceux complètement illettrés formaient 4·7 pour cent du total; ceux ayant reçu une instruction primaire, 80·4 pour cent; une instruction supérieure 1·3 pour cent; enfin, le degré d'instruction de 13·6 pour cent d'entre eux était inconnu. En 1920, les mêmes pourcentages étaient 5·0, 76·9, 1·4 et 16·7 respectivement.

On s'est également préoccupé d'établir une distinction entre les condamnés considérés comme buveurs modérés et ceux adonnés à l'usage immodéré des boissons spiritueuses; le tableau ci-dessous, couvrant la période 1887 à 1921, nous renseigne à cet égard:

ALCOOLISME ET CRIMINALITÉ—POURCENTAGE DU TOTAL DES CONDAMNATIONS

Périodes	Usage modéré de spiritueux.	Usage immodéré de spiritueux.	Non indiqué
	p.c.	p.c.	p.c.
1887–1890	44·6	39·2	16·2
1891–1894	53·8	40·1	6·1
1895–1898	54·5	34·3	11·2

1919	58·4	6·9	34·7
1920	59·6	6·7	33·7
1921	58·4	6·8	34·8

Parmi les condamnés, ceux qui subissaient leur première condamnation formaient 81·4 pour cent du total; ceux qui étaient condamnés pour la deuxième fois 9·5 pour cent et enfin les récidivistes ou criminels endurcis représentaient 9·1 pour cent; en 1920, ces pourcentages respectifs étaient 81·9, 9·0 et 9·1 pour cent.

Quant à l'état matrimonial des condamnés pour crimes et délits graves, il est indiqué par le tableau suivant, donnant les pourcentages respectifs des célibataires, des mariés et des veufs, par rapport au total des condamnés.

Année	Célibataires	Mariés	Veufs et veuves	Non classifiés

II—CONDAMNATIONS SOMMAIRES

La seconde partie comprend les causes jugées par les magistrats de police ou autres juges de paix, en vertu de la loi sur les condamnations sommaires, lesquelles consistent principalement en infractions aux lois provinciales et aux règlements municipaux, perturbations de la paix, voies de fait, violation des lois sur les boissons spiritueuses, ivresse et tous autres menus délits et contraventions.

Pour toutes ces causes, 157,704 condamnations ont été prononcées en 1921, au lieu de 144,265 en 1920 et 111,623 en 1919, l'augmentation sur l'année précédente étant de 13,439, soit 9·31 pour cent. L'augmentation de 1920 sur 1919 avait été de 29·24 pour cent. Il saute aux yeux que l'accroissement de ces sortes de délits se ralentit sensiblement. Parmi ces condamnés, 149,792 appartenaient au sexe masculin et 7,912 au sexe féminin, comparativement à 135,873 hommes et 8,912 femmes en 1920, ce qui représente une augmentation de 10·24 pour cent chez les hommes et une diminution de 5·72 pour cent chez les femmes. Pour les trois années 1919–20–21, le pourcentage des femmes condamnées par rapport au total des condamnations prononcées s'établit par 7·43, 5·82 et 5·01 respectivement.

Le tableau suivant est un relevé des condamnations sommaires prononcées en 1921, dans chaque province, comparativement à 1920:

Provinces	1920			1921			Fluctuations des pourcentages		
	Total	Hommes	Femmes	Total	Hommes	Femmes	Total	Hommes	Femmes
Ile du Prince-Edouard	340	336	4	373	365	8	+ 9·7	+ 8·6	+ 100·0

On peut voir par le tableau qui précède que le nombre des femmes condamnées a baissé dans sept provinces sur dix; les trois provinces où s'est manifesté une augmentation étant: l'île du Prince-Édouard, Ontario et Alberta.

Groupés par délits connexes, on obtient les chiffres suivants:

Délits et contraventions	Nombre		Fluctuation	
	1920	1921		
Voies de faits et autres attentats contre les personnes	5,334	5,182	−	152
Empiètement et autres délits contre la propriété	2,486	3,157	+	671
Infractions aux règlements municipaux	59,378	74,459	+	15,081
Violation des lois sur les spiritueux	10,247	10,460	+	213
Ivresse	39,769	34,362	−	5,407
Vagabondage, conduite déréglée et pensionnaires de maisons de débauche	10,739	14,216	+	3,477
Violation des lois contre le jeu	4,537	5,056	+	519
Violation de la loi sur l'opium et les drogues	1,797	1,793	−	4
Différents menus délits et contraventions	9,978	9,019	−	959
Total	144,265	157,704	+	13,439

Les différences principales que l'on remarque entre les chiffres de cette année et ceux de 1920 portent surtout sur les infractions aux règlements municipaux, lesquelles accusent une augmentation de 15,081 ou 25·4 pour cent, et le vagabondage qui présente une augmentation de 3,477 cas ou 32·4 pour cent; au contraire, on peut constater une décroissance dans les condamnations pour ivresse de 5,407 cas, ou 13·61 pour cent. Nous donnons ci-dessous les données qui se rapportent essentiellement aux questions de l'alcoolisme et de la prohibition, les chiffres étant ceux de 1920 et 1921.

	1920	1921
Condamnations pour possession illicite d'alambics	239	220
Condamnations pour infraction aux lois sur les boissons	10,247	10,460
Condamnations pour ivresse	39,769	34,362
Nombre de personnes condamnées à l'amende pour violation de la loi des liqueurs	9,674	9,031
Nombre de personnes condamnées à l'amende pour ivresse	36,009	32,001

Montant des amendes payées pour ivresse	315,099	316,960
Montant des amendes impayées pour ivresse	65,294	82,268

Les 9,031 personnes condamnées en 1921 pour violation des lois sur les boissons spiritueuses se sont vues imposer des amendes formant un total de $1,806,630, soit une moyenne de $200.05 par tête; en 1920, ces amendes n'avaient atteint que $1,687,430, soit $174.43 par tête. Les 32,001 personnes convaincues d'ivresse en 1921, ont été condamnées à des amendes se totalisant par $399,228, soit une moyenne de $12.48 par tête, au lieu d'un total de $380,393 et une moyenne par tête de $10·56 en 1920.

Statistiques de la police

Les statistiques des opérations policières pour 1921 ont été colligées dans 125 cités et villes dont la population dépasse 4,000 habitants. A cause de la nouveauté de l'entreprise, on a éprouvé quelques difficultés à se procurer les informations dans certaines localités et une douzaine d'entre elles ont totalement négligé d'envoyer leur rapport; deux d'entre elles seulement, Brantford, Ont., et Hull, P.Q., ayant une véritable importance. Les autres localités réfractaires

sont: North Sydney, Springhill, et Westville, Nouvelle-Ecosse; Chatham, Nouveau-Brunswick; Lauzon, Québec; Cobourg North Bay et Pembroke, Ontario; Yorkton, Saskatchewan.

La population totale des 125 cités et villes ayant envoyé leur rapport est de 3,130,178 habitants, gardés par 3,889 agents de police, soit un par 830 habitants. Le nombre total des crimes, délits et contraventions venus à la connaissance de la police en 1921 atteignit 183,708; les accusés traduits devant les tribunaux furent au nombre de 155,159, dont 132,886 ont été condamnés; d'où il suit que la police a réussi à arrêter et traduire en justice 84 pour cent des coupables; d'autre part, 86 pour cent des accusés ont été condamnés.

Pendant l'année, 4,298 automobiles, évaluées à $5,004,116 ont été volées et la police en a retouvé 3,962, évaluées à $4,710,129.

Sur les 5,633 bicyclettes volées, 2,915 ont été retrouvées et, de plus, la police a trouvé 2,219 bicyclettes qui n'avaient été l'objet d'aucune déclaration de vol. La police a recouvré en outre des objets et articles divers valant $1,601,875 sur les $2,436,070 volés ou perdus. Le pourcentage des articles récupérés s'établit donc ainsi qu'il suit:

Automobiles	92·2 p.c.
Bicyclettes	51·8 p.c.
Autres articles perdus	65·7 p.c.

La police a établi 3,037 identifications au moyen de photographies ou empreintes digitales.

Les agents de police ont trouvé 25,219 portes non fermées à clé. Au cours de l'année, la police a donné un abri à 24,526 personnes et ramené à leurs parents 5,028 enfants égarés.

La population des différentes institutions pénales en 1920 et 1921 est donnée dans le tableau IX de ce rapport. En se servant de ces chiffres, il convient de ne pas perdre de vue que les internés de ces établissements ont déjà été, dans la plupart des cas, enregistrés dans les prisons où ils ont passé avant d'être envoyés dans les pénitenciers ou maisons de correction; il convient donc de ne pas les compter deux fois.

Graces et commutations

En 1921, le droit de grâce s'est exercé en faveur de 990 condamnés, soit une diminution de 227 sur 1920. De ce nombre, 847 ont bénéficié des dispositions de la loi sur la libération conditionnelle; 128 ont été relâchés sous condition, mais non en vertu de la loi précédente; enfin, 15 ont été complètement graciés. Parmi les prisonniers relâchés, 431 étaient dans les pénitenciers, 231 dans les maisons de correction et 310 dans les prisons. Le droit de grâce a également été exercé en faveur de 18 condamnés non emprisonnés, qui ont vu leurs amendes soit remises, soit réduites. 23 condamnés, bénéficiant déjà de la libération conditionnelle, ont été affranchis des obligations qu'elle comporte.

Enfin, 10 condamnations à mort ont été commuées pendant l'année.

REPORT

OF THE

INSPECTION OF WEIGHTS AND MEASURES, ELECTRICITY AND GAS.

To the Right Honourable
The Minister of Trade and Commerce.

Sir,—I have the honour to submit the annual report on the Inspection of Weights and Measures, Electricity and Gas; also statements in connection therewith for the fiscal year ended March 31, 1921.

F. C. T. O'HARA,
Deputy Minister.

Department of Trade and Commerce,
Ottawa, June 27, 1921.

Mr. E. O. Way, Director of Weights and Measures, reports as follows:—

The Weights and Measures report for the fiscal year 1920-21 will afford more satisfactory reading than for any previous year. My last report, for 1919-20, laid special stress upon the adverse financial situation of the Weights and Measures Inspection service and the steps taken to improve the situation. This year I have the satisfaction of reporting that those steps, which include an advance of approximately 40 per cent in inspection fees and the introduction of annual instead of biennial inspection, have almost eliminated the recurrent deficit and made this service at last almost self supporting.

For the fiscal year ending March 31, 1921, the total revenue collected amounts to $267,105.62, as against $149,473.43 for the year 1919-20, an increase of $117,632.19, or nearly 80 per cent.

The total expenditure has increased from $272,515.36 in 1919-20 to $307,076.08 for 1920-21, an increase of $34,560.72, or little more than 12 per cent.

The number of articles and machines inspected has increased from 427,746 to 623,758 for the same periods, an increase of 46 per cent—which represents an actual increase in work done.

These figures clearly indicate the increased efficiency resulting from the changes mentioned above. For an increased expenditure of $34,560.72 increased revenue to the extent of $117,632.19 has been collected, effecting at the same time 45 per cent increase in the amount of work done, without any increase in staff.

The gross deficit has been reduced to $39,970.46, as against $123,041.93 last year, and deducting from the former the Cost of Living Bonus, amounting to $38,922.73, which is a special and non-permanent item, we find the net deficit is only $1,047.73—by far the lowest since Weights and Measures became a federal service.

The following table shows the relation between revenue and expenditure for Weights and Measures Inspection since 1881, in decennial periods:—

——	Salaries.	Travelling.	Total Expenses.	Revenue.
	$ cts.	$ cts.	$ cts.	$ cts.
1880–81	44,341 95	12,882 86	59,270 87	34,584 55
1890–91	54,218 50	16,999 61	72,305 22	33,662 23
1900–01	51,707 76	18,062 03	71,044 67	54,385 56
1910–11	80,556 94	34,130 87	117,062 15	98,427 39
1920–21	167,048 12	91,160 96	268,153 35	267,105 62

NOTE.—For correct relativity the Cost of Living Bonus is not included in the 1920-21 expenses.

Since 1910 it will be noticed that the salary and expense items have doubled, whilst the travelling expenses and revenue collected have nearly trebled.

Travelling expenses are given separately as indicating most exactly and sympathetically the expansion of Weights and Measures work in keeping with the trade development of the Dominion. For example, work done in the west has increased as follows for 1910-11 and 1920-21:—

——	1910-11.	1920-21.
Manitoba	8,215 84	26,368 10
Saskatchewan	4,738 71	36,768 55
Alberta	5,076 20	21,058 05
	18,026 75	84,194 70

The satisfactory increase in Revenue for the last fiscal year has already been explained. It is well to remark however that this result has been accomplished without inflicting any hardship upon either trade or industry, as testified to by the absence of complaints, whilst the annual inspection is fully justified by international practice and by the increasing delicacy and refinements, both in construction and operation, of weighing and measuring apparatus to-day.

The new situation is also beneficial to administration. Success is essential to any state of efficiency. Annual deficits are the antithesis of success and thereby most discouraging to the whole inspectoral staff. It is debatable whether Weights and Measures, as a protective service, should pay, and it has never earned more than 50 to 70 per cent of its expenses since its inception, but there is no doubt that such an objective provides the incentive necessary to efficiency. Working as this service has done in the past for nothing but annual deficits and the criticisms they inspire, was disheartening, to say the least. A new standard has now been set up, and the success of the past year has at last infused some sense of enthusiasm and encouragement into Weights and Measures work, which, with the new system of appointment and promotion by merit, augurs well for the future effectiveness of this service.

A general financial statement for the year 1920-21 by districts and provinces will be found in appendix A.

The following table gives a summary of the weights, measures, weighing and measuring machines, etc., inspected during the year, of which detailed statements will be found in appendices B and C:—

SUMMARY.

——	Submitted.	Verified.	Rejected.	Percentage of Rejection.
Weights (Dom.)	88,154	86,994	1,160	1·3
Weights (Metric)	453	453		
Measures of Capacity (Dom.)	147,110	146,783	327	0·2
Measure of Capacity (Metric)	36	36		
Measure of length	12,631	12,594	37	0·3
Milk cans	89,750	89,705	45	0·4
Ice-cream containers	78,282	78,219	63	0·8
Babcock glassware pipettes	43,318	42,793	525	1·2
Measuring pumps	15,363	14,820	543	0·3
Weighing machines	147,972	140,769	7,203	0·4
Weighing machines (Metric)	689	680	9	
	623,758	613,846	9,912	

The percentage of rejections is absurdly small and does not correctly represent the situation, as inspectors adjust all weights and measures that can possibly be adjusted and where there is no suspicion of fraud, and fail to report such adjusted apparatus as found incorrect. If the officers did not make these adjustments, the expense to trade of engaging tradesmen to do the work would be enormous.

Since 1916 separate statistics have been kept for railway track scales, owing to their importance, and it is interesting to note that these rejections have increased from 11 per cent in 1910 to 28 per cent in 1920, indicating more precise inspections.

This is largely due to the introduction of the test car, an all-steel car of short wheel base, weighing from 30,000 to 100,000 pounds. At present these are owned by the railways, but there is a large section of opinion that considers they should be possessed by the Government, through the Weights and Measures service. The expense of equipping the service with these cars, however, would constitute a considerable sum, whilst the questions of transportation, switching and storage involve many difficulties, easily solved when the cars are owned by the railways themselves. The railways must have these cars for repair work and new scale installations by their scale departments, which makes the advisability of their duplication by the Government still more doubtful.

SEIZURES AND PROSECUTIONS.

One hundred and ninety-nine (199) seizures of false and incorrect weights, measures and machines have been made during the year. Thirteen offenders were prosecuted as follows:—

For selling short weight 5
For using unjust machines 8

Convictions were secured in eight cases with penalties amounting to $128.35. Two cases were withdrawn and two cases are still pending.

SHORT WEIGHT: NET WEIGHT.

The above represent the first prosecutions for sale by short weight or measure under section 61a, chapter 75, Weights and Measures Act (1919). Our powers under this section, however, will not be effective until net weight legislation

is enacted requiring the contents to be marked on package goods in weight, measure or numerical count. Under food control, during the war, such regulations were introduced, but have lapsed with decontrol, and the failure of the department to secure net weight legislation since, to perpetuate such needful regulations, has brought about a tendency to revert to the unmarked package, the same being sold without reference to weight and therefore free from Weights and Measures supervision. This creates an unsatisfactory situation, as serious for the packers as for the public, since it engenders unfair competition and deprives us of our strongest weapon of combating the sale of American goods put up in American wine measure denomination, which is 20 per cent smaller than our Canadian imperial measure.

METRIC SYSTEM

The agitation for the compulsory introduction of the Metric System, engineered last year from San Francisco, has died down. The propaganda, however, served the useful purpose of arousing the opposition of large sections of industry, whose objections were before inarticulate and unknown.

Advocates of the change proclaim that the process would be easy and simple but it is worth noting that Great Britain has recently rejected a scheme to decimalise her currency, notwithstanding the plan would retain the sovereign and the florin unchanged. The main objection rested in the necessity for changing the value of the penny—which the committee reported would be regarded with keen resentment and suspicion by the masses. If it is inexpedient then to alter the currency—partially—currency being merely the medium of exchange and transitory, it must certainly give pause before we change the units of measurement and production—which are permanently embedded in the history, life and architecture of the nation.

It is well, therefore, to note that two English parliamentary committees have, since 1918, rejected the compulsory introduction of the Metric System and any change in the present system of currency in Great Britain, and such momentous decisions, after the hearing of lengthy and expert evidence, must be given due weight in this metric controversy.

THE STAFF.

During the year 1920-21 four officers have been retired under the Calder Retirement Act and one officer, Mr. C. D. Grant, of Winnipeg, has died, and two, Mr. T. Chénier, of Ottawa, and Mr. W. N. Courtenay, of Saskatoon, have resigned. All vacancies have been filled by returned men by the Civil Service Commission.

Since this service came under the latter body in the matter of appointments in 1918, fourteen vacancies have been filled by returned men. This policy is being strictly followed up. These men have given every satisfaction, whilst some of them have shown marked ability and initiative.

The absence of promotion by merit in the past deprived the officers of all incentive to acquire either knowledge or distinction in their duties, and recent examinations have demonstrated that but few officers wasted much time in studying their law and the technicalities involved in Weights and Measures inspection.

An inspector of weights and measures should at least be conversant with all the elementary laws of physics and mechanics, with facility in elementary mathematics, in addition to his knowledge of purely weights and measures matters. Without such qualifications an inspector cannot intelligently discuss the action of weighing and measuring appliances, and the cause of their errors with the trade experts he has to deal with, and under the present system, it is to be hoped that in due time the qualifications of the service will be raised to this technical standard of competence.

ELECTRICITY AND GAS INSPECTION SERVICES

Mr. O. Higman, Director of Electricity and Gas Inspection Services, reports as follows:—

The fiscal year which ended on the 31st of March last was a record year in so far as the amount of work accomplished by these services is concerned. The largely increased number of meters tested is due in part, first, to bringing up arrears that occurred during the war; second and mainly, to the increased use of electricity in the homes of the people. There were tested during the year:—

Electricity meters	223,062
Gas meters	99,319
Total	322,381

For the corresponding period of the year previous the total number of meters tested was 266,168, or 56,213 less than during the year just closed.

The amount of revenue accruing from inspection fees was:—

Electricity	$140,772 00
Gas	71,056 60
Total	$211,828 60
Expenditures—	
Electricity Inspection	$126,003 91
Gas Inspection	43,563 17
Total	$169,567 08

To the expenditure for inspection in the outside service must be added $18,000 for the laboratory staff at Ottawa and $22,000 for office accommodation throughout the Dominion, thus leaving a balance of revenue over expenditure of $2,261.52.

EXPORTATION OF ELECTRICAL ENERGY

The total amount of electrical power exported to the United States by the eleven exporting companies in various parts of the Dominion during the fiscal year was 1,019,564,011 kilowatt hours. This amount is somewhat below the normal demand, due entirely to the industrial depression that exists south of the boundary.

The electric power shortage in the province of Ontario ceased with the termination of the war and but for the enormous increase in the quantity of electricity used for domestic purposes there might possibly be a surplus, more especially when the Chippewa development of the Hydro-Electric Commission of Ontario now nearing completion is available. There is, however, a very insistent demand for power from the rural population of Ontario and this demand may be relied upon to take care of all hydro-electric developments.

The details of the operations under the various Acts administered by the branch will be found in the appendices to this report.

No. 10f—1921]

25021—1

To His Excellency the Duke of Devonshire, K.G., P.C., G.C.M.G., G.C.V.O., etc., etc., Governor General and Commander in Chief of the Dominion of Canada.

May It Please Your Excellency:—

The undersigned has the honour to present to Your Excellency the report of the Commissioner of Patents for the fiscal year ended March 31, 1921.

All of which is respectfully submitted.

GEORGE E. FOSTER,
Minister of Trade and Commerce.

Ottawa, June 22, 1921.

ANNUAL REPORT

OF THE

COMMISSIONER OF PATENTS

The Right Hon. Sir George E. Foster, P.C., G.C.M.G., M.P.,
Minister of Trade and Commerce.

Sir,—In pursuance of the requirements of the 63rd section of the Patent Act, Chapter 69, R.S.C. 1906, and section 5A of An Act respecting the Patent Act, the Copyright Act, the Trade Mark and Design Act, and the Timber Marking Act, Chapter 64, 9 and 10 George V, I have the honour to report as follows upon the proceedings in the fiscal year ending March 31, 1921, under the provisions of these Acts.

Proceedings Under Peace Provisions

Provision was made by the Treaty of Peace for extending the time for payment of fees and taking other action which should otherwise have been effected during the period of the war. The Treaty of Peace (Germany) Order, 1920, applies such provisions to this country. Under this Order and under Chapter 26, 10 George V, the renewal fees on 519 patents were accepted and the patents revived. Extension of time to import and manufacture was granted on 1,772 and 921 patents respectively, and 520 patents were placed under the compulsory license clause, section 44 of the Patent Act. A large number of applications for which the time limit for filing had expired under section 8 of the Patent Act were also accepted.

General Business

The general business of the office for the year ended March 31, 1921, showed a substantial increase over the preceding fiscal year. While part of this increase arose from the relief given under the Peace Treaty Order and the emergency legislation, the greater part was due to natural growth.

Compared with the preceding year the number of applications for patents was greater by 2,248, a gain of 20 per cent. 1,625 more patents were granted, an increase of 17 per cent. Certificates for renewal of patent fees increased 513, or 25 per cent. The number of assignments of patents recorded increased by 1,046, an increment of 23 per cent. Patents placed under section 44 of the Patent Act, the comulsory license clause, increased 1,379 in number, or 58 per cent. There were 1,472 more reports issued by examiners. This is 27 per cent greater than 1920. The issue of caveats was practically the same as 1920, there being only two more issued this year. Notices under section 8 of the Patent Act were fewer by 52 and showed a decrease of over 12 per cent. The total number of transactions relating to patents increased by 8,247, or 23 per cent over the preceding year.

There was a decrease of 299 registrations of copyright. This is 14 per cent less than last year. Trade Mark registrations exceeded last year by 289, an increment of over 15 per cent. Industrial Design and Timber Mark recordings were heavy. There were 99 more Industrial Designs and 36 more Timber Marks registered. These are increases of 45 per cent and 163 per cent respectively. The number of assignments

of Copyrights, Trade Marks, Designs and Timber Marks increased by 304, or 95 per cent over the preceding year. The total registrations of Copyrights, Trade Marks, Designs and Timber Marks showed a gain of 429, or about 10 per cent over the last fiscal year.

A statement of the particulars of the transactions of the Patent and Copyright Office is given in appendix A and a comparative statement for the last ten years is given in appendix B.

Receipts and Expenditure

A statement of receipts and expenditure is given in appendix C and detailed statements of the fees received from Patents and from Copyrights, Trade Marks, Designs and Timber Marks are given in appendices D and E respectively.

The receipt of fees from all sources exceeded any previous year. The total net receipts were $407,886.73, an increase of $53,389.76 over the amount received in 1920. The expenditure was $184,285.51 and the surplus of receipts over expenditure was $223,601.22. The receipts from Patent fees was $344,712.23, a gain of $50,665.95 over the preceding year. From Copyrights, Trade Marks, Industrial Designs and Timber Marks the fees were $63,174.50, an increase of $2,723.81 over the previous year.

Residence of Inventors for Patents Granted in 1920-21

In appendix F is given the country of residence of inventors for patents issued. Out of the total number of patents granted during the year over 69 per cent were applied for by residents of the United States. About 15 per cent came from inventors resident in Canada, and residents of Great Britain, its colonies and possessions, contributed over 8 per cent. The remaining 7 per cent came from inventors in twenty-nine other countries.

Exchange of Publications

The office received during the year the official publications and reports of patents, trade marks and designs from Great Britain, Australia, New Zealand, the United States, Italy, Switzerland and Japan.

In addition about fifty scientific and technical periodicals were subscribed for or received in exchange for the Canadian Patent Office Record. The office also received at intervals as published the abridgments of patents and the bound volumes of patents of Great Britain, the printed copies of the French patents, and the current weekly issue of the United States patents.

Staff

The total number of employees of the office at the end of the year was 101, an increase of twelve over the preceding year. During the twelve months two additional examiners of patents and one assistant examiner were appointed. One examiner returned from leave of absence due to service in H. M.'s forces. The other appointments were to the clerical staff. Two members of the examining corps and three from the clerical force resigned. One clerk retired on superannuation.

Trend of Invention

With a few exceptions the increase in the number of applications filed this year was evenly distributed throughout the various arts in the field of invention.

Applications dealing with transportation were again prominent. The largest single class of invention in the office related to carriages and wagons and was composed for the most part of improvements in motor vehicles, tractors, wheels, tires, tops, windshields, steering wheels and the like. Internal combustion engines,

including accessories such as carburetors, starters, cooling and heating devices and spark plugs, was the second largest. There was a decrease in the number of aeronautical applications. In railways, rolling stock and appliances there were increases in track members and in car couplings. There were decreases in the number of applications for life-boats and torpedo guards for ships.

In most classes of invention for articles directly usable in warfare, such as ordnance, small arms, targets, explosives and ammunition, decreases occurred.

In applications dealing with metal working there was an increased number of grinding, milling, cutting and punching, and sheet-metal shaping machines.

In woodworking there was an enlargement in the number of sawing machines, mostly of the portable power-driven drag-saw type.

Applications for metallurgical and electrochemical processes increased about 50 per cent.

Textile treatment and manufacture into threads and cloth showed substantial percentage gains.

There was a considerable increment in applications for typewriting, printing and typesetting machinery.

Applications for excavating, hoisting and transferring materials showed an enlargement of about 40 per cent.

In means for transmitting intelligence such as signalling, telegraphy and telephony, there was considerable increase. Devices to indicate to a following vehicle the intention of a driver to turn or stop continue to occupy the attention of many inventors; more applications this year are automatic in operation. In telegraphy there was nearly 100 per cent more applications and in radio telegraphy and telephony about 80 per cent more.

In all branches of the electrical arts, including the generation, transmission and application of electricity, there were notable increases amounting to an average of 50 per cent.

The development of power washing-machines combined with wringers was responsible for nearly double the number of applications relating to that art.

Improvements in tire valves, particularly those in combination with pressure gauges, more than doubled in number.

In machines and processes for the manufacture of paper there was 100 per cent increment. Many of these were for the treatment of new fibres for the production of paper.

New Legislation

A new Bill to amend and consolidate the Acts respecting patents of invention received its first reading in the House of Commons on February 25. The Copyright Bill which had been before Parliament and under consideration by special committees during the previous two sessions was reintroduced on February 28. No further progress had been reported when the fiscal year ended.

Respectfully submitted,

GEO. F. O'HALLORAN,
Commissioner of Patents.

[No. 11—1922]

To General His Excellency the Right Honourable Lord Byng of Vimy, G.C.B., G.C.M.G., M.V.O.: Governor General and Commander-in-Chief of the Dominion of Canada.

May it Please Your Excellency :—

The undersigned has the honour to present to Your Excellency the Annual Report of the Department of Customs and Excise, containing Tables and Statements relative to the Imports, Exports, Customs and Excise of the Dominion of Canada, for the fiscal Year ended March 31, 1921, as compiled from official returns.

All of which is respectfully submitted,

J. B. M. BAXTER,
Minister of Customs and Excise.

Ottawa, October 30, 1921.

PREFACE.

The Customs Act contains the following provisions respecting the Annual Report of the Department of Customs :—

"305. The Minister shall annually make to the Governor General, to be laid before Parliament within fifteen days after the meeting thereof, a report and statement of the transactions and affairs of the Department during the year then next preceding."

The Inland Revenue Act also contains provisions respecting the Annual Report of the Inland Revenue Service as follows :—

"14. The Minister shall annually make to the Governor General a report and statement of the transactions and affairs of the Department during the year then next preceding, which shall be laid before Parliament within fifteen days after the next meeting thereof."

The unrevised monthly statements of imports and exports, prepared and published under the direction of the Department of Customs from July 1, 1900, ceased to be published by this department since March, 1918.

Detailed statements, however, showing the quantity, value, and origin of imports, and the quantity, value, and destination of exports, continue to be prepared and furnished monthly by the Department of Customs from April 1, 1918, for publication by the Dominion Bureau of Statistics.

Trade Statistics classified by countries, with other details compiled from Customs returns, are now published by the Dominion Bureau of Statistics.

Part I of this annual report contains tables and statements relative to the Customs.

Part II of the report contains tables and statements relative to Excise.

EXPLANATORY NOTES RELATING TO CUSTOMS STATEMENTS

In General Statement No. 15 (Pt. I) of Goods Entered for Home Consumption, the term "Entered for Home Consumption" is the technical term in use at the custom-house, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value of goods imported is governed by section 40 of the Customs Act, which provides that the value of imported goods subject to ad valorem duty "shall be the fair market value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported directly to Canada,"

In General Statement No. 17 (Pt. I) of Exports, the term "The Produce of Canada" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials. "Goods not the produce of Canada" shows the exports of foreign goods which had been previously imported.

Under the regulations commencing July 1, 1900, all *Export* entries are delivered at the *"frontier port of exit,"* and the totals thereof are credited to the respective ports where the goods pass outwards from Canada. In view of the more complete returns obtained under this system the additions heretofore made to the exports statistics (prior to July 1, 1900) under the head of "short returns" are now omitted.

In this report, the tables of imports and exports at the several ports of entry indicate that merchandise of the value stated was *entered inwards* or *passed outwards* at the ports mentioned, but do not imply that the imports were all for consumption at such ports or that the exports originated there.

The value of "Goods the Produce of Canada" is their value at the time of exportation at the ports of Canada whence shipped.

The value of "Goods not the Produce of Canada" is the actual cost of such goods.

The initials n.o.p. means "not otherwise provided for."

The expression "ton" means two thousand pounds, and "cwt." one hundred pounds.

The figures shown in all statements for the Fiscal Year ended March 31, 1919, 1920 and 1921, are exclusive of Coin and Bullion.
